Hi everyone! I'm so excited with my first "Hello blink" with Visual Studio 2015 and RaspBerry Pi 2 IOT-powered. I would like to know if there's a manual for gpio's.

Guide Contents.
- Overview
- The GPIO Connector
- Adafruit Pi Code
- Configuring GPIO
- Configuring I2C
- Installing Kernel Support (with Raspi-Config)
- Installing

There is a table in the user manual with the remaining I/O on the expansion. The I2C interface implementation on the Raspberry PI is quite (I would say "very").

Guide Contents.
- OMGOMGOMG ITS GPIO Port
- Model A and B (rev 1 & rev 2) GPIO
- Raspberry Pi Model B+ GPIO Port
- New GPIOs

I am building a Raspberry Pi B+ powered survey device. According to the user manual, NFC scanner uses 5 GPIO pins + 5V + GND out 26 available like this:

```
<table>
<thead>
<tr>
<th>Pin</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>26</td>
<td>Ground</td>
</tr>
<tr>
<td>27</td>
<td>5V</td>
</tr>
<tr>
<td>28</td>
<td>5V</td>
</tr>
<tr>
<td>29</td>
<td>5V</td>
</tr>
<tr>
<td>30</td>
<td>5V</td>
</tr>
</tbody>
</table>
```
